August Lyster

Copenhagen, Denmark, +45 50499559, August.lyster@gmail.com

PROFESSIONAL PROFILE Analytical and curious BSc Business Administration and Information Technology student at CBS with a strong interest in data analysis, reporting, and new technologies. Experienced in structuring and analyzing complex datasets using Excel, Python, and SQL, as well as automating workflows and presenting results in a clear and persuasive way. Motivated by combining technical skills with business understanding to create real value. For instance, I pitched an IT project to Joe & the Juice's CTO, which received top marks, and I have further deepened my expertise in AI through summer school and personal projects.
